

Apple: The Next 35 Years

The new, faster a

The new, faster a

The new, faster a

The new, fast

Thank you for making our world a better place.
Rest in peace

The world was your garage
-Lus

Not that I knew you, but you had/have my respect.
R.I.P. with love

The change the way we think of communication and information that you do everything you will be missed

The World lost a great Man, a great Mind, and a fantastic visionary.
Rest in Peace, Sir. We miss you Andy. S.M

Steve Jobs

YOU Will be forever missed!
PS Thanks for my ipod

Thanks for everything, Steve.
You were insanely great!

I do things differently now - Thanks to your inspiration!

You will be missed! Thanks for the awesome technology. Both in our lives and in the cloud
-Brent-

Steve, WEISS CAN'T DENY WHO YOU ARE. AND WHO YOU ARE FOR THE WORLD WE NEED U!
Drew

GREAT JOB YOU WILL BE REMEMBERED FOR TIMES TO COME

Steve Thanks for the legacy you left behind.

Stevie Wonderful!

Miss Steve!
RIP Thanks for everything!

You were one of the greatest minds the world has ever seen.
RIP Mr Jobs
Thank You The Apple

MISSED THANKS FOR EVERYTHING

Simply the best!

Thank You for Everything

My life would be very different and a lot less fun without your influence.
Thank you, Steve.
-Cares

Thank YOU for so much especially Pixar!
RIP -Beth

iSad

You have been an influence and an inspiration since I was a child.
My father worked for Apple and now his years later I do as well.
Thank you for everything
ZIRGO

Steve THE WORLD WILL MISS YOU I wish I could be like you & really

Steve
Thank you for your vision and for the tools to allow my family to keep in touch and share our memories.
The world that you see now, I wish you could join in the future you created for us all. You'll never be forgotten!
-Egg-

YOU Made quite the blip in the Universe...
Thank You Alex

Steve -
You were a true visionary - a man before his time.
You passed a lot of living in 26 years. Thank you for living a life filled with passion and purpose.
❤️ OWL

Apple
はさくさく!
えいせい!
-Quinnie

Thanks for changing my life
You have the changed the way the world thinks and acts.
We were all lucky to have known you and by your example we can all be better.
-Miss you!

Your store is the best
iLuv

Thank you! Steve, you rocked our world! We are forever changed by your lively life!

Thank you for giving us the wonderful world of Apple!
You are the Michael Jackson of technology!
Mac, books, ipod, iPad, and iPhone!
RIP!
-daniel-

The world of technology became better because of your thoughts to the world.
The world is super energy and sadness!!

Dear Steve
Thanks for all you have done for the world your brilliant ideas such a great person!
❤️ you!
Pamelle you will be missed

Mr Jobs, Thanks for making life cool!
-fan

Will Never be forgotten!
RIP
Steve Jobs

TECH Will never be the same
R.P

MISS YOU!

Thank you!
-Juke
Thanks for all you created!
-Alex

THANKS!! FOR ALL U DID FOR US!

Phase 1: 1976-2011

A BALANCE OF FEATURES

The APPLE-1 SYSTEM is a fully assembled, tested & burned-in microprocessor board using the 6502 microprocessor. The board contains processor & support hardware; **complete video electronics** for a 40 character/line, 24 line video display; **on-board RAM capacity of 8K BYTES**; software system monitor in PROM; and fully regulated power supplies. The Apple attaches directly to an ASCII encoded keyboard and a video monitor, allowing the efficient entry and examination of programs in hexadecimal notation. The use of the new **16-pin 4K RAM chips** results in low power and high density memory, which can be upgraded to the 16K chips when they become available (32K bytes on-board RAM!!)

A fast (1 kilobaud) cassette interface is available and includes a tape of **Apple Basic**. And ... Yes, Folks, **Apple Basic is Free!**

APPLE-1

\$666.66

*includes 4K bytes RAM

Complete Control.

Introducing IMSAI 8048 Single Board Control Computer.

Complete Control System

Intel developed the world's first single chip microcomputer. IMSAI has built the system to put it to work. Instantly!

Presenting the IMSAI Single Board Control Computer. A complete program-mable computer and hardware control system on an 8 1/2" x 10" board.

Just plug in the power source (a 5V power supply or a 6V battery will do), and you can be controlling your home environment today!

The Chip Designed for Control

Intel designed the 8048/8748 single chip microcomputer with one thought in mind. Complete control. Everything you need is there: CPU, RAM, 1K ROM/EROM, I/O, timer/counter, interrupts... the works.

The Board That Implements It Instantly

There's a 24 pad hexadecimal keyboard and 9-digit LED hex display already on board. So you can start controlling the coffeepot and the sprinklers the minute you get the IMSAI home. Without adding anything but the connecting wires.

You can run almost any peripheral available. Not to mention the kids' electric train. The IMSAI Control Computer is

RS232 compatible. There are 12 quasi-bidirectional I/O lines with handshaking, and 14 more regular I/O lines, 5 heavy duty relays, and Teletype and audio cassette interfaces. All on one board.

There's already an extra 1K of RAM on board, plus sockets for another 1K of RAM and 2K of ROM/EROM. Still need more memory? The IMSAI 8048 allows expansion up to 64K of RAM off board.

Ultimately, the only limit to this system is your imagination.

Now, that's control.

For instant control, use the coupon provided.

GENTLEMEN:

I want instant control!

“If you want what’s best for your PET, choose Commodore software.”

Kit Spencer
General Manager
of Commodore Systems
360 Euston Road
London NW1 3BL

The Commodore PET is Britain's best selling micro-computer, with over 10,000 already installed in a wide range of fields, including Education, Business, Science and Industry.

This has led to a tremendous demand for high quality software.

And Commodore has met this demand by producing a first class range of programs, now available from the nationwide network of Commodore Dealers.

Commodore's support also includes training courses, a Users' Newsletter and Official Approval for compatible products of other manufacturers who reach agreed standards.

COMMODORE PETPACS

Over 50 Petpacs of programs are available (mainly on cassette) from Commodore Dealers.

These cover such popular titles as Strathclyde Tutorial, Statistics pack 1, Assembler Development System, Stock Market Trends and the Treasure Trove Collection of game packs including the award winning Star Trek, which is packaged with Petopoly. Prices are from £5 to £50.

TRAINING COURSES AND SEMINARS

PET systems are simple to use and any normal advice or assistance

NEW BUSINESS SOFTWARE PROGRAMS 'ON DISK'

Commodore's Floppy Disk Unit and high-speed Printer, combine with the PET to form a complete system ideal for running a business for under £2,500.

Commodore also produce a growing range of business software on disk available from Official Business Software Dealers.

Business Information System - COMBIS £150 + V.A.

Combis facilitates the storage and instant retrieval of all kinds of company records, from personal files to mailing lists and printed address labels.

Stock Control - COMSTOCK £150 + VAT

Comstock provides an accurate, up-to-the-second and comprehensive stock position for as many as 1,000 products.

Word Processor - COMWORD £75 + VAT

Comword turns the system into an excellent word processor.

Payroll - COMPAY £150 + VAT

Compay is a new, comprehensive payroll package.

you may need can be obtained from Commodore Dealers.

On the other hand, for rapid training on a basic or advanced level, you will certainly be interested in Commodore's intensive 2 and 3 day residential courses. We also run one day general appreciation seminars.

PET USERS' NEWSLETTER

This is Commodore's official method of sharing new information and ideas between the many thousands of PET users. The newsletter is published regularly and for an annual subscription of £10 you can start receiving copies now.

Look out for this sign. It tells you that compatible products of other manufacturers have met with our standards of approval.

Large supply chain vendors scaling back

By Bruce Berman
 Large supply chain vendors are scaling back their operations as the market softens. The software makers that were previously the most profitable are now the most troubled. The market is still in a state of flux, and many companies are looking for ways to survive. Some are cutting back on R&D, while others are looking for new markets. The market is still in a state of flux, and many companies are looking for ways to survive. Some are cutting back on R&D, while others are looking for new markets.
